SERIOUS CHARGE MADE BY JOURNAL

Paper Charges Glasman With Using Postoffice Position to Injure Its Business.

The Utah State Journal of this city came out in its issue of last evening with a charge that Glasman has prostituted his official position as postmaster for selfish purpose. It alleges that the editor, postmaster blocked the State Journal from the United States mails in an attempt to injure its business while he put his own paper through.

The State Journal has developed a scheme, by offering prizes, to increase its circulation. The full plan was published in the edition, now claimed to have been held up by Glasman, while at the same time it is held that the paper claimed to be injured by him and containing a similar scheme was allowed to go through the mails without question.

H. A. Bowman of the State Journal has taken the matter up with the United States District Attorney H. W. Booth and it is said that he has decided against Glasman's action and that the Journal was entirely within its rights.

Here is the Journal's charge:

"William Glasman is illegally and viciously prostituting the Ogden City postoffice to his own selfish ends. In this he is justifying every charge made against him while his appointment was being up in the United States senate. At that time H. A. Bowman, business manager of the State Journal, protested against the confirmation of Glasman on the grounds that he would use the government office to injure him, a competitor in business. Last evening Glasman shut out of the mails the entire mail issue of the State Journal and deprived the readers of their papers on the charge that the issue was not available because of the announcement of the voting contest it contained. At the same time this same Glasman, who got wind of what the State Journal was doing, prepared a cheap imitation of the contest for his own paper, the Standard, published the announcement and sent his own papers through the mails while the State Journal was held back until morning. Never in the history of Utah journalism was so drastic an action taken. It was a government office so prostituted. It remains to be seen whether the citizens of this community will become parties to this contemptible and cowardly trickery by giving the trickier countenance and support."

"For the benefit of friends of the State Journal who were inconvenienced in not receiving their papers promptly, we will say that the matter was today submitted to United States District Attorney H. W. Booth in Salt Lake City. His decision is that the State Journal was clearly within its rights in publishing what it did, and that Glasman had no right whatever to shut out the paper from the mails. It will not occur again."

Lindsay, the railway mail clerk who was arrested in Ogden about four months ago by the federal authorities on a charge of having lifted a special delivery letter from the mails, returned to Ogden yesterday after his case was dismissed by the federal authorities. TURRET PLATES STOOD THE TEST

Experiment on Monitor Florida Successful From Naval Point of View.

Old Point Comfort, Va., May 27.—The biggest naval gun, the heaviest projectile and the highest explosive known, combined with close range and deadly aim, were today allowed to work their full havoc on the turret plates of the monitor Florida. The result is declared to be a victory for turret construction, and this notwithstanding the eleven-inch hardened steel plate was blackened, broken, the seams of the turret sprung and the rivets and screws loosened and twisted.

It was not five minutes after the terrible impact that the finely balanced mechanism of the turret was being worked with perfect ease and the twelve-inch gun on the inside was trained at will. Inside the turret where the gunners and gun crew the havoc was much less apparent than from the outside.

Examination showed that of the many delicately adjusted instruments for fire control, sighting and operating the turret, few if any, were out of working order.

Not Put Out of Trim.

"If this had happened in battle the Florida would be fighting yet," said one of the rear admirals, with enthusiasm. Then followed a futile attempt to destroy the newly designed turret which was fighting mast on the stern of the Florida. After five shots of the guns had gone through it the mast stood firm.

"Forty shots would not bring it down, and no enemy would waste ammunition and time shooting at it," was the expert comment.

It was predicted that all new ships will be equipped with battle masts of this description.

The scene of the demonstration was Hampton Roads. The Florida, which had been in the hands of experts for some time, lay with steam up, her nose pointing out through the Virginia capes near Thimble shoal light, and about four miles from Old Point Comfort.

METHODIST CONFERENCE.

Much Argument, but Not a Great Deal of Business Done.

Baltimore, May 27.—A vast deal of argument marked today's session of the Methodist Episcopal general conference and not a great deal of business was accomplished. The committee on boundaries held its final regular meeting today, but the final decision of the conference will remain independent for the present.

The committee on the episcopacy decided upon a report recommending Bishop Thomas B. Neely of Buenos Ayres of the charges of maladministration laid against him. The report was more than a source of information that Bishop Neely will not be returned to South America, but that he will be given some other important post instead.

FIEND MAKES HARD FIGHT

Cocaine Gives Man Extraordinary Strength.

Marion Meriner, alias Ray Miller, a cocaine fiend, gave the police a desperate fight before he was finally landed in the city jail last night. Meriner was in the Kenyon bar last night and while under the influence of the drug attempted to deliver an oration. After a short time to his aimless speech, his auditors demanded that he cease. This he refused to do and after a short time he was taken to the police station.

Meriner was taken to the police station and kept steadily at work. The cocaine fiend was finally put in the patrol wagon and taken to the police station.
